EDUCATION

The University of Tennessee, Haslam College of Business

Bachelor of Science in Business Administration

Major: Economics Collateral: *International Business*

Cumulative GPA: 3.3 • ACT: 35

Tennessee Volunteer Scholarship, Dean's List (Spring 2025)

Knoxville, TN

Graduation: May 2028

WORK EXPERIENCE

Deepwater Asset Management

Research Automation Intern

Minneapolis, MN

May 2026 – Present

- Built an automated tool that ingests SEC Form D filings and funding news to flag new financing rounds, delivered weekly to the investment team; a principal used it to identify and reach out to a founder
- Automated additional pipelines that convert news and web-activity data across ~57 companies into weekly signals and structured summaries, running unattended on scheduled jobs
- Worked directly with the team to translate their research and evaluation process into repeatable, automated workflows

Edina Lacrosse Association

Youth Coach

Edina, MN

May 2023 – August 2025

- Launched a new lacrosse program for ages 6 and under from the ground up by designing age-appropriate practice plans and coordinating parent volunteers to support player development
- Coached athletes ages 4 to 12 across three seasons, leading station-based drills and small-sided games to build fundamental skills and sportsmanship, leading to 50+ collective wins

Miles (personal-care CPG brand)

Marketing Intern

Edina, MN

May 2022 – August 2023

- Developed ingredient explainer materials and infographics to clearly communicate product benefits across social media platforms and brand websites

PROJECTS

NU Monitor | Python, DuckDB, Polars, Streamlit

github.com/cdubcyclones/nu-monitor

- Built a comparative dashboard placing Nu Holdings against SoFi, Block, and PayPal on a growth-vs-profitability frontier, reconciling IFRS filings, peer SEC XBRL, and Brazilian central-bank data into one 2014–2026 quarterly panel
- Retired the predictive track after three observations proved too few to support a reliable relationship, repositioning the tool as a descriptive comparison rather than overstating the result

SKILLS & CERTIFICATIONS

Technical: Build and automate data and research tools by directing AI coding agents, working with Python, SQL, GitHub Actions, and SEC EDGAR / public-data sources

Analytical: Financial-statement analysis, comparative company research, alternative-data sourcing, Microsoft Excel

Certifications: Microsoft Excel Skills Badge, Excel Critical Thinking Badge (Great River Learning)
